This has taught the youngsters to gauge their speed for the distance and resulted in a more rapid development than any squad of novices has shown at Kendall Green for some time. Captain Kutzleb himself is showing better form than he did last year, when he made a very creditable showing in his first race at Franklin Field and later ones in Washington.

Earl Mather, younger brother of the best quarter-miler Gallaudet has yet produced—Ernest Mather, captain of the team which won its race at Franklin Field two years ago with over 160 yards to spaire—has been on the track for two years, and up to this season has had little chance of making the relay team. This spring, however, he has made up for this by steady and rapid improvement.

Erwin, of the football team, and Shanklin, both new men, have been running consistently, in as good time as the more 'xperienced men. The records of these four men differ by only fractions of a second, and as they outrun the other members of the squad they will very probably comprise the quartet to represent Gallaudet. Tombisson, who other members of the squad they will enede away for home, he came on and very probably comprise the quartet to represent Gallaudet.
